Career Objective

I'm a part website designer and part developer with experience in designing, engaging and user-friendly interfaces (UI) and experiences (UX) on desktops, tablets and mobiles. Although my experience crosses several industries, my passion lives where human interaction meets design and the creative idea. I specialize in building complex websites and web applications. I enjoy creating effortless user experience and designing delightful digital products.

Summary

- I have 14+ years' experience in web designing/developing as well as graphic designing.
- Very Good in Website Designing, Mobile App Designing, HTML, CSS and JavaScript/jQuery, Bootstrap 3/4, SASS, GitHub, Grid CSS, Gulp, Grunt(beginner), Angular(9) and ReactJS(beginner).
- Building sites with AA/Wai-Aria accessibility standards and security headers
- Love to accept challenging assignments.
- I possess a flair for Web Designing & Developing, Graphics Designing, Website Maintenance, Website Uploading and Search Engine Optimization friendly web sites.
- I am flexible, innovative and systematic.
